**Intro** A syncopated rock style with A and A6

**Verse 1**

A

I'm back on the street again, I think I wanna be your friend,

D A

We can take it slow, we won't run.

E F#m E F#m A

We can take a walk, we can talk a little talk, maybe have some fun.

**Chorus**

D F#m Bm D

Cruising down the street on a warm summer night.

A Asus4 A Asus4

Everyone watching everyone, underneath the lights.

D F#m Bm D

It's a sea of colors, with blues reds and greens,

E F#m D A

With boys in their muscle shirts and girls in their skin-tight jeans.

**Verse 2** followed by Chorus

I play the game that never ends, I look around and I pretend,

That I'm not watching you so carefully.

You turn my head, and you take my breath away, well what more can I say?

**Verse 3** followed by Chorus

Now I'm gonna take a chance, hey baby, would you like to dance?

I know a hot rockin' band.

We could rock and roll, we could even dance slow, won't you take my hand?

**Out**
